The beautiful Taboo Resort in Muskoka was the venue of choice for Shauna and Jordan's fabulous summer wedding. Rather than the more soft and traditional colour scheme so often associated with weddings, Shauna a creative designer herself, wanted a unique and colourful palette for her flowers and decor.

Acquiring the services of the wedding design firm Rachel A. Clingen Wedding & Event Design, Shauna was able to bring her creative storyboard vision to life. Rachel and her team embraced this beautiful idea and created a glorious display of ombre jewel toned florals and coordinating decor for this spectacular wedding. Inspired by the beauty of the Muskoka region, the design included simple elements reflective of the area including birch candle holders, aisle stands, and branches. Other complimentary details included cranberry charger plates, and

a custom branch canopy suspended over the head table. Guests swooned over the gorgeous display of candles and colourful details including a coordinating dance floor decal. As the sun set on the Lake Muskoka, Shauna and Jordan danced the night away surrounded by family and friends. "The end result was absolutely breathtaking", said Shauna, "Our friends, are still talking about our wedding!"
