A love affair with art

Artist: Jean-Pierre Lafrance - Abstract #11

Drawn to the detail, texture and ambiance of the Thompson Landry Art Gallery in Toronto's historic Distillery District, we were instantly inspired by Quebec Artist Jean-Pierre Lafrance paintings. His contemporary and colourful designs created the perfect palette for us to build upon. Taking ombre to the max with bright and rich tones we created bold and beautiful, with love written all over it.

the inspiration

Bold colourful blooms bring out the rich palette and expand on the opulent feel of such an interesting venue. Inspired by art and beauty, each element flows seamlessly into the next. Add one or more brooches to a hand-tied bouquet to create something extraordinary and beautiful. Create depth by layering different kinds of flowers, contrasting colours, forms, and sizes. The bridal bouquet, the vibrant centerpieces, and all the other floral touches lend an air of powerful magnificence. Splashes of colour by way of napkins, tableware and other décor items maintain the look. Details such as menu cards, colourful drinks, and a show-stopping wedding cake that is sure to wow guests and leave a lasting impression.
